

### **The problem we are seeking to solve?**

Too many are not able to live with the abundance needed and available. Having the basics in place in abundance frees us to hope, create and know joy. Each wisdom team will collect the insights of Brightmoor's people and we will compile them into a statement, and begin a plan of work. Impact is our mission. Not projects, life altering impact that comes when there is security of abundance.

### **The Vision We are Creating:**

Ensure that every person in Brightmoor has abundant food, shelter, clothing and hope.

### **Purpose**

We come together as contributors in building human wellbeing for all residents of Brightmoor. The Abundant Wisdom Teams will focus on wholeness because each aspect of the 4 essentials affects the others.

### **We share the following values for this work with the community:**

We respect residents as first and primary constituents; we acknowledge by word and practice that residents have demonstrated the strength and ability to survive. We come along side by invitation, we speak with respect, act in partnership, move with permission, represent with honesty, transparency and commitment that the wellbeing of the residents and the community as important as any other priority and more important than most.

### **The Abundant Wisdom Teams value between each other the following:**

Working in a sharing way together and being concerned about each other, talking with peace to each other, not being two faced or hiding things, meaning what we say and saying what mean, walking what we talk, delivering in a hurry but not messy, making sure don't lose sight of the things we have to do "in mean time" while be build a solid foundation for the future. Walk and chew gum at the same time kind of thing. We are open and flexible to wisdom provided both by hard numbers (empirical data) and the wisdom of life experience, letting both be in the recommendations we make.

UBUNTU - [Archbishop Desmond Tutu](#) offered a definition in a 1999 book: " A person with Ubuntu is open and available to others, affirming of others, does not feel threatened that others are able and good, based from a proper self-assurance that comes from knowing that he or she belongs in a greater whole and is diminished when others are humiliated or diminished, when others are tortured or oppressed" .
